The road to transformation

«In the final analysis, therefore, we digitize information, we digitalize processes and roles that make up the operations of a business, and we digitally transform the business and its strategy. Each one is necessary but not sufficient for the next, and most importantly, digitization and digitalization are essentially about technology, but digital transformation is not. Digital transformation is about the customer.»

Jason Bloomberg

An Eye to the Future

The image shows a screenshot of the Microsoft Office 365 app launcher interface, which is a central hub for accessing various Office applications. The interface is displayed within a window titled "Office 365" with a search bar and a user profile icon. The main content area is divided into sections: "Εφαρμογές" (Apps) featuring icons for Outlook, OneDrive, Word, Excel, PowerPoint, OneNote, SharePoint, Teams, Yammer, Dynamics 365, and Flow; "Εγγραφα" (Documents) with a button to "Αποστολή και άνοιγμα..." (Send and open...); and "Προτάινόμενα" (Recommended) showing a preview of a document titled "Εγχείρημα αυτοί του αρχ... 19 Apr". The interface is overlaid on a Power BI dashboard, which is visible in the background, showing a navigation pane on the left with options like Home, Favorites, Recent, Apps, Shared with me, Workspaces, and My Workspace. The Power BI dashboard also displays a "Get Data" button and a series of charts and tables at the bottom.

Thank you!
